SYNTHETIC - FICTIONAL OPERATIONS DOCUMENT - DEMONSTRATION ONLY

Emergency Operations Plan - Century Tywood J3 Corp (synthetic)

Revision: A

1. Safe shutdown and isolation

Use the PCS emergency stop on each inverter (2 x Dynapower MPS125).

Open the AC disconnect next to the main distribution panel.

2. BMS alarm response: call the EQORE 24/7 operations desk (role-based, synthetic).

3. Fire, explosion or release: evacuate, keep enclosures closed, stay upwind.

4. Damaged equipment: do not re-energize; EQORE assesses before restart.

Revision history

A 2026-10-01 Initial issue

5. Drills and training (synthetic)

Drill dates are scheduled by the facility and EQORE (project-specific).

This synthetic plan does not state code-mandated drill frequencies.
